Information on the Pre-Conference for Early Career Scholars

The pre-conference provides students, postdocs, and untenured professors (with up to three years in a tenure-track job) the opportunity to present their work. Joint work with senior co-authors is eligible as long as the presenting co-author is eligible.

Papers eligible for the pre-conference are treated exactly as other submissions for the SoFiE conference. However, if they do not make the main program, they are automatically considered for the pre-conference. It is also possible to submit a paper for consideration for the pre-conference only.

The pre-conference program will feature only early career scholars, apart from the invited address by Professor Gael Martin from Monash University.

Everybody planning to attend the Annual SoFiE conference is invited to attend this pre-conference to help raise the quality and recognition of the early career scholars.

Information on the Submission Procedure

If you have never used EasyChair before, you will have to create a new user account to submit.

- Once logged on, click on "New Submission" on the top left menu bar to submit.
- You must indicate which program you would like your paper to be considered for in the "Keywords" section of the submission form (each keyword must be on a separate line). **You must write one of the three following options:**
 - Please write "**Main Only**" if you are submitting a paper for consideration in the main program only, followed by any relevant keywords for your paper.
 - Please write "**Main/Pre**" if you wish to have your paper considered for both the main program and the pre-conference.
 - Please write "**Pre Only**" if you wish to have your paper considered for the pre-conference only.
- **Please name your pdf file with author last names and the full title of your paper.**
- When submitting your paper on the EasyChair system, a check box selection of subject area classifications will appear. Please select **at least one** and **at most three** areas that best fit with your paper. This choice will facilitate both the assessment of the paper by appropriate members of the program committee and also the establishment of coherent conference sessions.
